Sergei Baturin (Russia, Bashkortostan Republic, 453431)

About me:

I am a self-taught front-end developer. JS, React, Redux & Node have been studying since the beginning of 2019. Programming so captured me that I decided to leave other activities. Here are serjbaturin.github.io links to my test projects. I work at my portfolio now. I hope my skills will be useful to your business.

Front-end:	Back-end:	Databases:	Operational:
HTML (2 years)	PHP (2 years)	MySQL(2 years)	GIT (2 years)
CSS (2 years)	Node (10 months)	Postgres(2 months)	Docker (1year)
Javascript (2 years)	REST (6 months)	MongoDB (10 months)	AWS (1 year)
React, Redux (10 months)			Heroku (10 months)
Webpack(1 year)			
REST(6 months)			

Education:	Languages:	Data Visualization:
2019 - Now Self-taught learning Front-end developer	English - Intermediate Russian - Native	D3.js (1 months) Chart.js (0 months) Three.js (0 months)
2002 - 2007 College of Blagoveshchensk Social teacher		

JS / React / Redux / Node Experience (2019 - Now):

I have some pet-projects in my portfolio. You can read about and run them here - serjbaturin.github.io.
The books I read recently: React & Redux (Benx, Porsello), Secrets of the JavaScript Ninja (John Resig, Bear Bibeault), Learning Node (Shelley Powers), Node JS Guide (Flavio Copes).

Experience in IT 2017 - 2019:

Since the end of 2017, I have written websites for organizations in my city (Blagoveshchensk, RB). Here are some of them blagdoctor.ru, mbugdk.ru, baimuratova.ru. In the role of full stack developer, I tried to reduce the budget of clients and paid great attention to the compliance of the product of those assignments.
